Parser Lab Test Cases

```
C:\Users\anh\source\repos\Parser\Debug\Parser.exe
Please enter a declaration in format <type> <variable> [= number] ;
int A;
no errors found
Press any key to continue . . .
```

```
C:\Users\anh\source\repos\Parser\Debug\Parser.exe
Please enter a declaration in format <type> <variable> [= number] ;
int a;
illegal variable name
Press any key to continue . . .
```

```
C:\Users\anh\source\repos\Parser\Debug\Parser.exe
Please enter a declaration in format <type> <variable> [= number] ;
short B;
unrecognizable type
Press any key to continue . . .
```

```
C:\Users\anhtd\source\repos\Parser\Debug\Parser.exe
Please enter a declaration in format <type> <variable> [= number] ;
float C = 0.5;
no errors found
Press any key to continue . . .
```

```
C:\Users\anhtd\source\repos\Parser\Debug\Parser.exe
Please enter a declaration in format <type> <variable> [= number] ;
int A = 10,
; expected
Press any key to continue . . .
```

```
C:\Users\anhtd\source\repos\Parser\Debug\Parser.exe
Please enter a declaration in format <type> <variable> [= number] ;
float C = ;
unexpected number
Press any key to continue . . .
```

```
C:\Users\anhtd\source\repos\Parser\Debug\Parser.exe
Please enter a declaration in format <type> <variable> [= number] ;
float D = 2;
no errors found
Press any key to continue . . .
```

```
C:\Users\anhtd\source\repos\Parser\Debug\Parser.exe
Please enter a declaration in format <type> <variable> [= number] ;
int E = 2.2;
unexpected number
Press any key to continue . . .
```

```
C:\Users\anhtd\source\repos\Parser\Debug\Parser.exe
Please enter a declaration in format <type> <variable> [= number] ;
float B 40.5;
; expected
Press any key to continue . . .
```

```
C:\Users\anhtd\source\repos\Parser\Debug\Parser.exe
Please enter a declaration in format <type> <variable> [= number] ;
float B;
no errors found
Press any key to continue . . .
```

```
C:\Users\anhtd\source\repos\Parser\Debug\Parser.exe
Please enter a declaration in format <type> <variable> [= number] ;
float C=0.2;
no errors found
Press any key to continue . . .
```

```
C:\Users\anhtd\source\repos\Parser\Debug\Parser.exe
Please enter a declaration in format <type> <variable> [= number] ;
short D;
unrecognizable type
Press any key to continue . . .
```

```
C:\Users\anhtd\source\repos\Parser\Debug\Parser.exe
Please enter a declaration in format <type> <variable> [= number] ;
float F;
illegal variable name
Press any key to continue . . .
```
